North Country Show Goats a new tradition...

Jaxson has a passion for goats that is unmatched. North Country Show Goats is Jaxson's program built on a practical approach to livestock production, a tradition that is rooted in five generations of family livestock experience. By using natural service bucks Jaxson kept his breakeven is lower than an AI or ET program. All of these kids have been handled extensively and will be ready for immediate pickup or reach out for delivery options before the sale and we can hold them for what solutions work. The entirety of the current kid crop will be offered with nothing held back at house or sold before the sale. There will be 4 private treaty lighter kids that would be nice buddy goats available after the live sale concludes.

Range Raised, Performance Proven...

Herd Sires:

Hitchcock came from Hitchcock Show Goats out of Roundup MT. This long bodied traditional colored wether sire produces kids that hit the feed bunk and grow. The Hitchcock sired kids are always in the hunt for final drive.

Hunter is co-owned with New Era Acres out of Iowa. This jet black 7/8 Boer buck caught our eye from the first picture. Sired by PF08 Church Bells from Pitlicks, Hunter brings in a depth of quarter and rib that really compliments the doe program. The high potential on the Hunter offspring is exciting.

Doe Herd: Jaxson hand selected these does across Montana and Wyoming. Having genetics tough enough for the north country conditions make keeping a solid functional herd that much easier.

Starter Kit...

All goats from this sale will come with a starter kit to help 4H members hit the ground running. This kit will include a sack of Payback Champion Goat donated by CHS and Mountain View Co-op, water filter, halter, & a feed measuring cup.
