# WELCOME TO THE SALE

*Welcome to our Annual Sandhill Red Angus Production Sale. We would like to thank all our family and friends that helped to make this sale possible. It is great to be surrounded by such a great community of people locally and throughout the whole industry.*

*We are very excited to offer sons out of our of Harvester 103c and Untapped 5047. Two bulls we feel will make a lasting mark in our herd and within the breed. We believe these bulls, along with all our sires, will help our customers stay at the forefront of the industry. We are committed to providing our customers with bulls that will produce top quality females. We will not sacrifice growth and performance in our quest to produce great females though.*

*Part of our program every year is buying our bull customers calves back. We buy top quality heifers back with the intent to put these heifers into our bred heifer program. We take pride that our bulls do a great job in producing females that will thrive in any environment and it has proven itself year after year. We have been breeding heifers for over 13 years now and it has become a main stay of our operation. If you are looking for heifers with a program and a plan behind them then look no further. In addition this year we are offering a select group of young cows and pairs.*

*We at Sandhill Red Angus would like to thank all our past customers for their support. We have had the pleasure of having many loyal customers who have supported our program, and it has been our pleasure to supply them with cattle that fill their every need. All the cattle in the sale are available for viewing prior to sale time at the ranch, or at Sidney Livestock March 3th up until the sale. We look forward to seeing everybody sale day, March 5th!*

Sincerely,

*Andrew and McKenzie Johnson*

# COMMERCIAL FEMALES

LOT  
**1A**

## 50 THREE YEAR OLD RED ANGUS COWS

Here is a rare chance to buy a set of cows with all the work done. These young cows come right off the top of our replacement program and are to calve March 20<sup>th</sup> for one cycle. All of the cows for sale here raised a calf last year. These young cows are bred to high power Sandhill Red Angus bulls. These cows will raise a great set of calves this year and for many more.

LOT  
**2A**

## 150 RED ANGUS FIRST CALF HEIFER PAIRS

Selling pairs for April 15<sup>th</sup> to May 1<sup>st</sup> Delivery.

All the pairs offered for sale will have AI calves out of SRJJ Ice Man 4047 at side. We will work with buyers in anyway possible to help with delivery and trucks. Sidney Livestock will collect 30% of the purchased price on the pairs and the other 70% will be paid at delivery.

# COMMERCIAL FEMALES

LOT  
3A

## 50 RED ANGUS BRED HEIFERS

All these heifers were purchased from past bull customers and put into our bred heifer program. The heifers have been ultra sounded by High Plains Vet Clinic and grouped into one heat cycle. The heifers should start calving March 20<sup>th</sup> for twenty days. They were bred by Sandhill Red Angus calving ease bulls. They are easy fleshing, moderate framed, and of top quality. Selling gate cut of 5 or more.

# THRIVE

**Position your ranch to thrive with the industry's most-favored female.**

An independent university study compared eight years of Superior Livestock Auction data, revealing Red Angus-sired heifers commanded up to \$11/cwt more than females of all other breed types.

**Ranch Tested. Rancher Trusted.**

75%	54%	87%	88%	31%	30%	53%	15%	21%	69%	19%	92%	12%	78%	62%

8079 is one of the best Harvestor's we have raised. He is as long and stout as we can make them. His dam X75 has done a awesome job for us and she still looks great while being bred up first cycle. 8079 is the type of bull that will add pounds and also make great females.

RED LWNBRG HARVESTOR 103C  
Sire of Lot 1 & 2

## SRJJ HARVESTOR 8070

ID	REG#	DOB	CAT	TED HARVESTOR 154A

70%	41%	75%	88%	9%	11%	39%	26%	57%	68%	33%	79%	12%	55%	50%

8070 has been a standout since the day he was born. Out of a promising young cow that is dark cheery red and picture perfect. One of the heaviest calves at both weaning and yearling. 8070 is the type we strive to produce. I haven't seen a son of Harvestor look more like his sire than this calf.

# RED ANGUS BULLS

8044

## SRJJ RUNAWAY 8044

7%	15%	52%	83%	2%	5%	44%	61%	11%	16%	9%	69%	16%	42%	59%

In my opinion this is by far the best Runaway calf to sell. He is as powerful as we can make one out of a beautiful young cow. His grand dam is still in production and has a great udder. 8044 has 8 EPDs in the top 16% of the breed. What is even better is that he looks the part. Here is a bull that will catch the eye of lots of good cattlemen.

75%	65%	93%	90%	46%	52%	19%	53%	33%	54%	45%	65%	33%	60%	50%

This is the first calf out of Weight Out 6171 to sell. I don't think we could start it out any better. We used a Harvester son out of 8135s dam last year on our heifers. That is how highly we think of his dam A87. If you are looking for some fresh genetics that will flat work don't miss out on these 6171 calves.

Another 5047 son that came easy and never stopped growing. 5047 is the full brother to our lot one calf last year. He sold to Ron Fox in Turner, MT. We AI'd to some really good heifer bulls a year ago but 5047 has just flat outdone the competition.  
HEIFER BULL

One of my favorite heifer bulls in the whole sale. 8112 is a very stylish bull out of one of our best young cows. It is no mistake when you see these young cows out of Red Direction that just don't miss. We sure do miss Red but he sure left his mark.  
HEIFER BULL

Another Weight out son that will sire pounds. 8141 proved what he can do with a 105 WW and YW ratio. His damn W147 has proven herself over and over again. She is the sire of out 4204 herd bull and is still producing and looking as good as ever.

**SRJJ ROMEO W147**

43%	19%	63%	69%	22%	17%	46%	71%	52%	49%	8%	97%	14%	84%	85%	

8068 is the type of bull that would work well on heifers for a year or two and then move on to the cows and not sacrifice anything. A big birth to wean spread bull that you will want to keep every daughter you get. We are getting ready to calve the second set of 491 daughters and are having a hard time faulting them.

8068

## Payback Mineral

### Heifers:

- ▶ Improved growth
- ▶ Improved ovulation
- ▶ Better conception rates

### Cows:

- ▶ Tighter calving intervals
- ▶ Improved conception rates

### Bulls:

- ▶ Earlier puberty
- ▶ Enhanced semen quality
- ▶ Improved foot health

### Healthy calves:

- ▶ Improved colostrum quality
- ▶ Better vaccination response
- ▶ Lower incidence of scours

### Heavier calves:

- ▶ Increased milk production
- ▶ Tighter calving intervals
- ▶ Greater weaning weights

Payback mineral forms the foundation of a productive feeding program resulting in the best return on investment for your operation.

## Bull Challenger

- High Fiber source for muscle expression
- Chelated mineral program
- Proven formulation for genetic potential

## Head Start Feeding Program

	Head Start
Feeding Rate*	10-15 lbs
Additional Hay*	2-5 lbs
Average Daily Gain**	2.5-4.0 lbs
Medication	Optional

HEIFER BULL

## Red Angus Guide to EPDs

**HB** ..... HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

**GM** ..... GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

**CED** ..... Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

**BW** ..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

**WW** ..... Weaning Weight and **YW** ..... Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

**Milk** .... Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

**ME** ..... Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

**HPG**..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

**CEM** .... Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

**STAY**.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls with a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

**MARB** .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

**YG** ..... Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

**CW**..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

**REA** ..... Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

**FAT** .... Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.
