MARDA BLACKBIRD 836

Lot 1

SPRING CREEKS RITA 7211

Lot 32

Welcome

Dear Cattlemen and Friends,

It is with great pleasure that we welcome you back to Marda Angus Farms for our 5th Production Sale with Spring Creeks Cattle Company and our friends at Johnson Family Cattle and Premier Angus.

On October 28 we will be selling a group of females right off the top of our 2018 calf crop. The bred heifers are as sound and functional as you can find and are ready to go to work for you. We pride ourselves on raising cattle that serve the needs of today's cattlemen, and these females will make great additions to any herd.

Whether you are looking to develop the next elite genomic animal in the breed, striving to have an All-American nominee, seeking a great junior project show animal or want a deep pedigreed individual to add to your herd, we feel we have what you need to achieve that goal.

Bringing you this outstanding selection of animals would not be possible without the support of numerous people. First and foremost, we would like to thank our partners in this event. They have bred and developed these cattle and are allowing you to choose from their best.

Next is our family and friends who are involved at various levels of this sale. Without their support, developing this caliber of a sale would not have been possible.

Thank you to the Angus Hall of Fame for all of their guidance, expertise and their extra attention to detail during this process.

Finally, to our potential buyers, thank you for your interest in the sale. We hope this sale book and line-up offers genetics that will assist with your operation and help you in reaching your goals.

Please, join us on October 28, 2018 in Lodi as we all continue our quest for success in this great industry.

Sincerely,

The Terry Quam Family

Time flies when you're having fun and here it is, our 5th Annual Production Sale with the Quam Family of Marda Angus. It's gracious of them to provide the beautiful setting to help us showcase our program.

Our efforts at "breed'n the feed'n kind" never waiver. These kind work in the show ring, as seedstock genetics or "pasture to the center of the plate." We're offering you the best of our program for your evaluation.

Southwest Wisconsin has been blessed with an abundance of moisture and heat this summer. The grass has never been greener longer. Mother Nature has given us the opportunity to view our extensive AI program and the top cut of our genetics at peak performance.

We are grateful to be in the beef cattle business and see demand increasing for what we produce.

Appraise these females with confidence knowing we brought you "the kind that work!"
